DETAILED ACTION

1. The Office has withdrawn all rejections raised in the Non-Final Rejection mailed 6/8/2007.
2. After a thorough search, and in light of the prior art of record, claims 1-3, 5-20, 58, 21-23, 25-39, 59, 61, 40-57 and 60 (renumbered as 1-59) are allowed.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance:

The present invention is directed to methods and systems for the creation, storage and access of link relationships among documents stored on a network.

The closest prior art, Dolan et al. (US Patent No. 5,801,702), is directed to a method for adding network links in a displayed hierarchy and the disclosure of a particular data structure associating those links. The further cited reference, Rivette et al. (US Patent No. 6,877,137), is directed to a method and system of linking annotations to portions of web pages. The additionally cited reference, Li (US Patent No. 6,725,227), is directed to a bookmark database system, whereas the cited reference Goerz, Jr. et al. (US Patent Application Publication No. 2002/0065671), is directed to an Internet-based client/server environment.

These references do not disclose creation of a first and second document object link relationship, stored in one or more link directories separate from the first document object, and including the assigning of link relationship attributes to a link relationship entry stored in a link relationship table.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
